Praxis

1. How specifically might people worship in spirit, but not truth in common Christian actions like prayer, singing, communion, giving, witnessing, etc.? How about truth, but not spirit in those same actions?
2. Identify one area in which you find yourself often simply “going through the motions” in relation with God? What can you do to proactively seek to change things in this area?
3. Thought Question: Assess where/how does Jesus’ blunt correction of this woman’s false worship in v. 22 fit in the overall flow of His conversation with her… what can we learn from this?
