

## Acts 19:1-7

### Clear Facts

- Twelve men (v.7)
- Paul found them (v.1)
- They hadn't received the Holy Spirit when they believed (v.2)
- They had received John's baptism of repentance (v.3)
- They didn't fully understand what John was preparing for (v.4)
- They didn't know about baptism in the name of Jesus (v.5)
- They were baptized and Paul laid his hands on them (v.6)
- They spoke in tongues and prophesied when they were baptized and received the Holy Spirit through the laying on of Paul's hands (v.6)

### Good Guesses

- They had not had any contact with the Ephesian church of Aquilla and Priscilla and Apollos.
- They were Jews.
- Paul could quickly tell that something wasn't right.
- Tongues and prophesying were not a necessary sign of genuine salvation for all believers, but an occasional sign in situations where it was especially important.

### Clear Conclusions

- There were still groups of followers of John the Baptist at this time.
- By the end, these twelve men were clearly born again followers of Jesus.
- The gift of the Holy Spirit is an essential part of the gift of salvation.

### What was their spiritual condition when Paul met them?

- Not saved?
- Saved, but didn't know about Christian baptism and the Holy Spirit?
- Paul didn't know (and we don't either)?
