Sermon: "Predictions For 2023!"

I Text:

Old Covenant: *Zechariah 6*

New Covenant: *Revelation 6*

II Doctrine:

- 1) In the year 2023 our sovereign God will continue to smite the wicked. The "Four Horsemen of the Apocalypse" are a Geo-political template of God's judgment upon his enemies. Jesus Christ the King will crush the rebellion before him as he has done throughout history. We will be the arrows in the King's bow spreading the Gospel of salvation! The gospel message brings death to those who reject it, and life to those who accept it. (*White Horse, Revelation 6:1,2; Zechariah 6:3; Isaiah 49:1-6*)
- 2) We are in a "Four Horsemen" era and the war that continues to grow is under God's control. God uses warfare between nations to exercise his judgment. World War Three has already started in the war between NATO/Ukraine and Russia. (*Red Horse, Revelation 6:3,4; Zechariah 6:1,2*)
- 3) We will continue to have famine and food shortages around the world in 2023. Warfare always leads to supply breakdown and inflation for those under siege. God is fully in control and this is one of the four aspects of his divine judgment. (*Black Horse, Revelation 6:5,6; Zechariah 6:1,2*)
- 4) The sudden deaths among people old and young, because of the Covid-19 pandemic and experimental Mrna treatments will proliferate in 2023. Influential Doctors and experts will continue to expose the elevated death rates among the vaccinated. The idols of government and healthcare will continue to be crushed by God. Death is always a part of God's judgment. (*Pale Horse, Revelation 6:7,8; Zechariah 6:9-15*)
- 5) The Apocalypse was an unveiling to comfort God's people not terrorize them! Popular culture has categorized the Apocalypse as something horrible because for them it is!
