

# Union with Christ

---

1

## Corporate Union w/ Christ: Unity and Diversity

---

- Scripture clarifies that shared unity with Christ does not at all imply that everyone possesses the same gifts or even measures of faith, but rather, the same (new) identity, promises and dignity/worth.
- Additionally, union with Christ does not imply that everyone lives an equally sinful or holy life.
- Practically speaking, if we are uniting around something other than the Christ with whom we are united, then we are doing something that could go on just fine without the Gospel.
  - The danger of the “particular issue” church
