Reflection and Application Questions (for personal reflection and family conversation):

1. What promises made to King David pointed forward to the coming of Christ?
2. How were the hopes of Israel challenged during the exile? How did they cling to hope through this?
3. How does Scripture demonstrate that Jesus is the fulfillment of the promises to David, the long-awaited Messiah?
4. What promises do we continue to cling to? What does it look like to wait in eager expectation for Christ's return?
