

Why Talk About CV-19?

(December 15, 2021)

The need to continue to discuss CV-19 and all things connected to it is necessary because the goalposts are constantly being moved. We *need* to question this instead of simply going along with it.

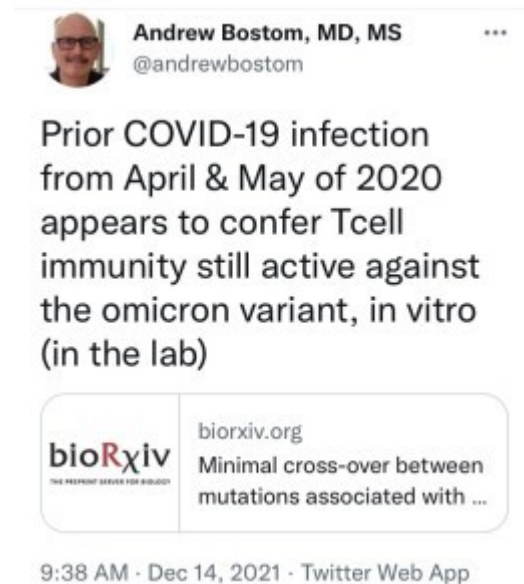

Some are okay with the ever-changing CV situation because they say, "*Well, they didn't know then, but they have more information now.*" Okay, but these are supposed to be experts. They should have some idea how a virus works regardless of lethality. The fact that society has never been put through what global society has been and continues to be put through is very telling. Is CV living up to its hype? Let's remember that there is a 99%+ survivability with CV.

When CV-19 first arrived on the scene, we were told we needed to shut down the economy for 15 days to slow the spread. Fifteen days came and went and quickly turned into several months and more months after that before society could *begin* to open things up again, but then only with the constant "protection" of masks, social distancing and washing of hands. We were all waiting on pins and needles for the coming "warp speed" miraculous vax that would *delete* CV-19 and save millions of lives.

[Studies have proven masks and other non-medical](#) interventions for CV-19 are not at all effective. Yet, here we are two years later and continuing to go against science with some going back to these flawed draconian measures. Just consider the image showing the amount of money people will pay if they are found to have broken the law in Australia.

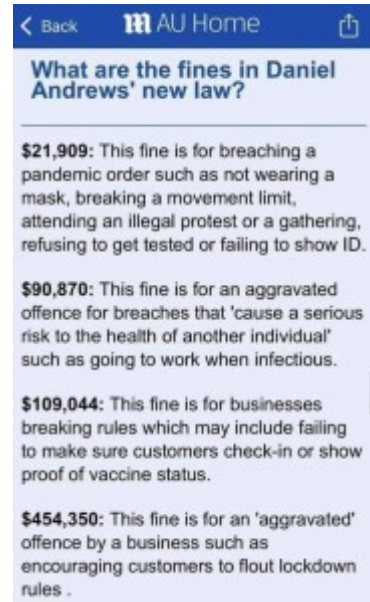

[Steve Kirsch has listed 11 lies](#) we've been told about COVID (though there are many more):

1. The vaccines are safe and effective
2. Masks work
3. Vaccines are the only way back to "normal"
4. Vaccine mandates are necessary
5. Do whatever the authorities tell you to do
6. Trust your doctor
7. Early treatment using re-purposed drugs don't work
8. Full liability protection is needed for pharma companies
9. No one has died from mRNA vaccines
10. Dissenting views must be silenced
11. The Nuremberg Code doesn't apply to people in the USA

These are just some of the lies which many continue to believe. We were told children were the least likely group to be affected by CV-19. Now, it is insisted that children as young as 5-11 be vaccinated and parents cannot wait to get their kids in for a shot. Because of this we are now witnessing more [deaths of children under 18 than from the disease itself; at least 750 and counting](#). You can read the full article yourself as the author breaks down the pertinent facts regarding this tragedy.

[Canada is experiencing a 28 times](#) increase in stillbirths from moms who have been vaxxed. Coincidence? By the way, you'll easily find "fact checkers" who deny these facts and attempt to paint these authors as conspiracy theorists. But we've also just learned that [Facebook admitted](#) that their precious "fact checkers" are simply providing *opinions* (and they're using this argument to avoid lawsuits.) They suspend or ban people based on these fact checkers' opinions. Facebook has effectively admitted they are a *publishing* firm, which should deny them of their protection they've enjoyed.

Moreover, in spite of being told repeatedly that it's the unvaxxed causing the spread of CV, a recent article in [The Lancet](#) is the latest showing that it is not the unvaxxed, but the *vaxxed* who are contracting and spreading the latest variants of CV. This becomes very clear when we note the entire cruise ships with passengers and crew all vaxxed come out with numerous cases of CV on the ship.

The *Lancet* article goes on to say that stigmatizing the *unvaxxed* is not justified because they're not the problem. [Another The Lancet](#) article indicates that the more people are vaxxed for CV (with more boosters), the greater the chance of creating vaccine-induced VAIDS in themselves: *Vaccine acquired immune deficiency syndrome*.

...experts worry that with each subsequent 'booster' shot, this process of 'immune erosion,' as they call it, only continues to accelerate.

So much dependency on vaccines tends to bypass the immune system, especially with these new, severely untested mRNA vaxxes. According to the above article, the CV jabs turn people's bodies into walking spike protein factories. What's the problem? The problem is that the body is being forced to recognize only one protein in COVID-19 and ignore the rest of the illness. However, when people contract CV-19 and survive, their bodies actually have antibodies against *all* the proteins in CV-19, not just the spike protein. Since viruses are always mutating in order to remain alive, the virus simply needs to mutate so that the spike protein becomes unnoticed as the virus will rely on other proteins besides the spike protein. Yet, the body is now trained to only spot the spike protein. What can happen?

There appears to be something terribly wrong with the way things have been done since the beginning. It appears intentional from those with the power and authority who are constantly changing the narrative and moving the goalposts. If we stand back and take the time to see what changes have been made in society because of CV-19, we can note several things that appear to be reboots of things previously done in history and unfortunately, many of those things were done during Hitler's Nazi (National Socialist), regime. We are being told that in order to move freely in society, we will need a health passport, likely on our phones to start, that can be constantly updated as needed when new booster shots are received. If this becomes reality, how far away are we from using an implantable chip or living, up-gradable tattoo?

This is a Gesundheitspass used by the Nazis during the war.

Translated it means 'Health Pass', and was used by the Third Reich as an identity document to control travel and access to facilities.

History sure looks like it's repeating itself!

This is exactly what happened under Hitler with Jews (and other "undesirables"). To move around society (as far as Hitler's brown shirts would allow), a "pass" was needed. This is *happening* throughout global society in many places. The Biden administration has already stated it is contemplating only allowing the vaxxed to fly. Those who are vaxxed will clap their hands with glee, not realizing they are applauding their own enslavement. If they do wake up, it'll be too late in the game. People were suspended from social media for daring to claim this is really what the vax passports are about and it turns out, it's really what they're about.

To continue to discuss CV-19 is to become aware of what governments appear to be doing. In fact, there is so much going on that it is impossible to catalog or talk about all of it. While CV-19 has everyone's attention, Biden continues to force his multi-trillion dollar "Build Back Better" scheme onto America's taxpayer. Marxist elected officials in US Congress continue pushing their agendas, like trying to bring about what George Orwell called "Newspeak," meaning using only verbiage that is *acceptable* so as not to offend others and only use the type of speech that is *all-inclusive* and therefore *equitable*. The Vigilant Citizen gets it right in a recent article: [The War on Words](#)

They want us very limited in what we can publicly say through societal peer pressure. This actually circumvents the First Amendment because they'll do it without changing any laws. They are also working on taking down the Second Amendment as well. So many things are being pushed that it can literally make your head spin.

We are living in the days Paul spoke of to Timothy in **2 Timothy 3:1-5**.

1 But know this, that in the last days perilous times will come: 2 For men will be lovers of themselves, lovers of money, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, 3 unloving, unforgiving, slanderers, without self-control, brutal, despisers of good, 4 traitors, headstrong, haughty, lovers of

pleasure rather than lovers of God, 5 having a form of godliness but denying its power. And from such people turn away!

Paul says people's first priority will be to love only themselves. The direct assault on all things related to the God of the Bible and His followers is becoming seriously apparent in many areas of society today. Paul is talking about those within Christendom in his letter to Timothy, not those outside. Yet, if he's talking about those within Christendom, how much worse will it be outside the Church?

We are living in crazy days where the Left pushes an agenda that is anti-God and anti-truth, like murdering unborn babies is considered "healthcare." The Left is adroit at using words and phrases that sound innocuous but have nefarious meanings. They do this for several reasons. First, it's what those who stand against God want to do, trying to throw off His "chains" (**Psalm 2**). Second, they do this because this attitude that God is allowing is moving the entire world toward the coming Tribulation where Satan will be allowed to gain as much control as he possibly can in order that he might use the armies of this earth (human beings and technology), to keep God the Son from returning to this earth. Unfortunately for Satan, this doesn't go well at all as we clearly see in **Revelation 20**, or the lost of this earth, for that matter.

If all of this is happening throughout the earth, with tyranny on the rise, why aren't more and more pastors preaching and teaching on this subject? Why are so many seemingly ignoring it instead of addressing it and helping build up Christians during this time?

It's almost as though they do not see any prophetic discourse in the Bible. I don't quite understand how a Christian can jettison roughly 33% of the Bible, frankly, but unfortunately, when I take the time to survey many online sermons, I see precious little that provides any details related to Biblical end times that began in Paul's day. I'm guessing that many refuse to go there because it is controversial, so they avoid it. Some may think it's not necessary.

The problem continues though, because it seems too many, including Christians, believe that pharma companies really just want to help people. Yet, they conveniently forget that these companies are free from all liability when it comes to vaccines. Some might argue that if they did not have this, they wouldn't want to produce a product. Pharma companies have been sued for drugs that didn't work properly and caused much harm. Why are they free from liability where vaccines are concerned? They're literally making *billions* from governments around the world. Then consider that the FDA and the CDC are allowed to receive funding from pharma companies and things should begin to make sense.

I could provide fact after fact, but maybe a good place to start is with people like Robert F. Kennedy, Jr. and his book [The Real Anthony Fauci](#). Fauci appears to be a murderer in a suit; nothing more. In fact, he is alleged to have done the [same thing with the AIDS epidemic in the 1980's](#) that he is doing now; pushing only one particular drug to treat that condition: AZT. Yet, thousands of HIV positive people DIED *after* they began using AZT. They didn't get better at all. Why is that? Why was *nothing* else tried then?

Is it possible that all these vaxxes and boosters are creating a situation called "[ADE](#)" ([antibody dependent enhancement](#))? Some medical experts are indicating it *will* happen; "*ADE is the interaction of the immune system with the virus resulting in death of most of the vaccinated upon re-exposure to the virus.*" This is said to be exactly what happened with the [animals they tested mRNA vaxxes on](#). They died when they came in contact with the virus later *after* they had been vaccinated.

It appears the same thing is happening today with Ivermectin and HQC. Get rid of it, they say! Don't use them, warns the FDA! Yet, Joe Rogan was prescribed Ivermectin by his doctor and he was made well. This same doctor treated nearly 200 people in Congress with the same drug and they got well. I also got well with Ivermectin.

But to make matters worse, it appears that now, the Biden Administration's [FDA is working with the United States Postal Service](#) to track and intercept Ivermectin being sent through the mail (legally), by mail-order pharmacies. Why?? Don't buy Ivermectin from foreign countries and if you use a mail order pharmacy to fill your doctor's prescriptions, ask them to send in an unmarked mailer or ask them to use another delivery service rather than the US mail.

Why was *every* potential early treatment not even considered? Whether it was Hydroxychloroquine, Ivermectin or something else; it was off the table. The only one that is allowed now? Remdesivir introduced by Dr. Anthony Fauci based on a previous Ebola clinical trial in which the use of this drug had to be stopped after several people died. That's the one they want you to use now. Go into the hospital for CV, they'll put you in a bed, attach a saline drip, and place you on a mechanical ventilator (if needed), then give you Remdesivir (with other things). You are separated from your family, you don't get to make informed decisions and if your organs start to shut down because of Remdesivir, you'll eventually drown in your own fluids as your lungs fill up from the saline drip.

Yet, too many continue to not see a problem at all. I'm at a loss.

Ask yourself these questions:

- IF the seven-year Tribulation is coming, how will it arrive; instantly or incrementally?
- Is CV simply a coincidence, is it possibly nefariously planned, or was it completely unexpected but used to advance an agenda?
- What do those in power gain from all the mandates?
- Is it about our health or controlling us?
- In what other ways might the Tribulation be coming if not by using CV-19?
- If we are not in the very end of the end times, what is happening now?

It appears to me that things are swiftly moving toward the end. I'm of the opinion that because of the major push to vaccinate, if the Tribulation begins soon, many of the judgments that will occur inside the Tribulation may be due to the effects of the CV vax and boosters given now. The videos I'm seeing of people who suffer adverse deadly reactions is horrifying. These people are trapped in their bodies, without control. I cannot imagine the torture of that.

Folks, I'm not putting this here to freak anyone out, nor am I just trying to create reasons to be scared or angry. It simply is what it is in today's world. I'm putting this here because if the final seven-year Tribulation is coming to this world sooner than later, we all need to be prepared for that to be rolled out. Things will continue to accelerate and we already see no sign of Fauci backing off, but he continues to push ahead with threats of more boosters, more this, more that. WHY?

I can see no other reason for this continued push toward tyranny except that he and others are working on behalf of globalists (who work on behalf of Satan), in order to install a final world order over which they will rule. This is why I began writing the series [Daniel 7 and Revelation 13](#). In fact, the study of End Times is what motivates me to help people understand the times in which we live. We need to see the signs and live accordingly. I really don't think there's that much time left, but I hope I'm wrong.

I'll be back soon with the second part of the Daniel/Revelation series.
