

## Mingled

(February 9, 2024)

I've begun writing a new book though I honestly thought I was done writing except for blog articles. But because of my study over the past few years, what I've learned is something I feel compelled to share. I have taken the time to study some of the following:

- Early church fathers' writings
- Book of Enoch
- Jasher and other ancient books of antiquity

Based on this, I fully believe a day is coming when so-called space aliens will reveal themselves to humanity and the world will embrace them. Because of this reveal, several things will happen. First, aliens will share "technology" they possess that allegedly allows them to travel the universe in hours or days. Second, these aliens will teach humanity that the idea of one all-knowing, omnipotent God of the universe is simply superstitious rot and that belief is what has kept humanity from moving toward true freedom, self-determination and paving our own path forward. This is something they've already been teaching in a limited fashion through their chosen human vessels of the New Age, but they will ramp this teaching up tremendously. Their physical presence will sell it.

I've previously written about these aliens in *Demons in Disguise*, *Alienology* and *Nephilim Nightmare*, and as I concluded then, they are nothing more than demons. Deception is their specialty.

Consider **Genesis 6:1-2**.

1 Now it came to pass, when men began to multiply on the face of the earth, and daughters were born to them, 2 that the sons of God saw the daughters of men, that they were beautiful; and they took wives for themselves of all whom they chose.

Seems strange to us that somehow, these "sons of God" took daughters of men and managed to somehow mate with them so that they gave birth to some type of hybrid creature (*nephilim*). The phrase "sons of God" must refer to angelic beings, not other human beings. It's the same phrase used in **Job 1:6**.

Now there was a day when the sons of God came to present themselves before the Lord, and Satan also came among them.

The connection seems obvious. Satan was among these sons of God and it's obvious why Satan joined them. He wanted to prove that Job's faithfulness to God was superficial because God had placed a

protective hedge around Job. If Satan would be allowed to make life miserable for Job, he would soon despair of God and curse Him.

But the point here is that the "sons of God" who appeared before God in the heavenly courts were angelic beings. This is also very likely true of the "sons of God" in **Genesis 6**. Because of what these angels did *to* and *against* humanity, they wound up sinning greatly (**Jude 1:6**).

And the angels who did not keep their proper domain, but left their own abode, He has reserved in everlasting chains under darkness for the judgment of the great day...

**Jude** is referring to the angelic beings of **Genesis 6:1-2**, though he does not explain exactly what those angels did. Besides **Genesis 6**, we gain more information from the *Book of Enoch* and the *Book of Jasher*. I'll emphasize these two books are *not* considered to be divinely inspired and were never intended to be part of the Canon of Scripture (though the Ethiopian Christians have included the *Book of Enoch* in their Canon of Scripture). That does *not* mean they are not authentic in some other way as potential history. Both **Peter** and **Jude** quote from or refer to the *Book of Enoch*, so it is clear that the book existed during the first century and probably way before that.

People can believe what they would like to believe about these books, but it cannot be denied that the idea of angelic beings somehow mating with human women is a very real possibility as noted in Scripture. In fact, just two verses after we learn of these "sons of God" taking women for wives and somehow impregnating them, we learn that "giants" lived on the earth (**Genesis 6:4**).

There were giants on the earth in those days, and also afterward, when the sons of God came in to the daughters of men and they bore children to them. Those were the mighty men who were of old, men of renown.

Whether angels physically mated with human women or simply manipulated human DNA is something that we do not know. The result was that giants (*nephilim*), were born and began living on the earth.

My wife and I watched a very interesting episode of *Prophecy Watchers*[1] the other night. The host, Gary Stearman, interviewed Tim Alberino, who has traveled the world in search of clues to the ancient pre-flood civilizations, which he says still exist throughout the world.[2] What I found from listening is something I've concluded myself. I'm convinced that the pre-flood world became nothing but evil (**Genesis 6:5**), largely because of what fallen angels introduced to humanity. But it was also much more than that. By the way, for more information on this topic, here's another video from Ken Johnson.[3]

Then the Lord saw that the wickedness of man was great in the earth, and that every intent of the thoughts of his heart was only evil continually.

So the entire earth became filled with people (and possibly hybrid creatures), who were incorrigibly *evil*. Everything they thought, every intention they had was pure evil *continually*. There was no hope for humanity at this point except for Noah and his immediate family (**Genesis 6:9-10**), which is why Noah is mentioned next.

9 This is the genealogy of Noah. Noah was a just man, perfect in his generations. Noah walked with God. 10 And Noah begot three sons: Shem, Ham, and Japheth.

Unlike everyone else, Noah actually walked with God, endeavoring to live a life that pleased Him. He was virtually alone in this. With the fallen angels mingling or somehow changing the human DNA of women, things changed drastically for humanity from that point onward. The human genome in everyone but Noah had been forever *changed* into something God never meant it to be. The result? Literal giants began inhabiting the earth. It also explains why God had no choice but to destroy all living things except Noah, his family and the animals with him on the Ark. There was no going back to what was prior. The damage had been done.

Tim Alberino (and others), have searched the globe to find artifacts of these ancient civilizations *and* giants. If we consider the level of technology from ancient civilizations like Egypt alone, one has to ask, where did that technology come from that allowed the Egyptians to create megalithic structures (the pyramids, etc.) with no mortar using extremely large and multi-ton stones together? This was thousands of years ago and the Egyptians somehow managed it, though we do not know how they did it even today. Were they given specific secret information by fallen angels?

The *Book of Enoch* goes into detail about some of the secrets the fallen angels shared with humanity. These angelic beings did what they were not supposed to do by teaching humanity the secret knowledge of making weapons, teaching women how to beautify themselves, working with metals, and many other things that humanity would likely have never discovered or might have discovered in a different context over time.

These fallen angels rebelled against God and ultimately it seems, like Satan, wanted to take over the earth and build for themselves a one-world kingdom with them in full control. In fact, isn't that why Satan did what he did because he hated the idea that God put Adam (a little lower than the angels), in charge of His new Creation, bypassing angels?

As I consider what the pre-flood world may have looked like, I can only wonder aloud (as Alberino did), that what began way back then, will end the same way in the future. In other words, Jesus was very clear when He said the end times prior to His physical return would mirror the days of Noah and the days of Lot. Yes, they did normal things like being married, but it's more than that.

The overall picture of the pre-flood world appears to be something that we are headed toward *now*. During that pre-flood world, did fallen angels want to gain control of God's Creation, making themselves "gods" to human beings, and creating their own progeny and manipulating or mingling their DNA with human women?

Consider the situation *after* the Flood of **Genesis 11**, when Nimrod led people in attempting to build a tower that would reach the heavens. Personally, I believe this was an attempt of fallen angels to find a way *back* to the heavenly realms, something from which they had been removed. They were ultimately sequestered in everlasting chains in darkness until their judgment (**Jude 1:6**).

So, the point is that Satan and his fallen angels have, ever since their fall, endeavored to take control of God's Creation. That's clearly been Satan's goal and **Revelation** makes it clear he will get his chance. I believe this is happening *now* as Satan uses his proxies among globalists to gain control of this world. It is also interesting to me that human DNA manipulation has entered the global picture, which is forever changing the human genome in people across the globe. Many are unable to see this reality and its tragic end.

We know at some future point, a ten king federation will rule over the entire world for a short period of time (**Revelation 17**). The upcoming reveal of so-called aliens will help sell it to humanity and that will move things forward in earnest. The world will forever change on that day as humanity will embrace these aliens because of their appearance, power, and what they *say* they can do for the world. These aliens are deceptive demons perpetrating a mass hallucination that most of the world will readily believe and accept.

Remember what occurred way back during the pre-flood days of Noah. Those fallen angels were seen as *gods* to the people of earth because of their appearance, power and secret knowledge they were willing to share with humanity. Because of it, humanity and the animal kingdom became thoroughly corrupted, needing to be destroyed. Because these angelic beings portrayed themselves and were accepted as gods, there was no need for *the* God of the Universe at all! People could *see* their "gods" and interact with them face to face.

I believe we are coming to a day - and probably very soon - when all of the evil and corruption that undergirds global society now, will rise to the top with the revelation of alien beings, who will tell us what they can do *for* us if we will simply follow their dictates. They will promise to eliminate the problems that exist throughout the earth. They will usher in some form of temporary peace. They will share technology designed to ensnare us to willingly submit to their leadership.

This is coming and it *will* come because God will allow it. He will allow it because it will bring the current hidden evil of the invisible realm out into the open in our physical realm. Once here, God will begin to judge it by pouring out His wrath over the earth and throughout human society.

This will truly be a repeat of the pre-flood days. Considering what fallen angels did then, it's not that difficult to believe in a similar future reality, especially considering how much God's Word reveals to us about the future. Remember Satan's desire is to "be like the Most High" (**Isaiah 14:14**), and literally rule the world. Of course, his efforts will fail abysmally.

Once God destroys Satan and those who follow him, God will create a new "Eden" (**Revelation 20-22**), in which the righteous will live forever without sin. But what's coming to this planet *prior* to that appears to be a redo of what occurred during the pre-flood days of Noah. Prepare your minds for action and to rise above all of this.
