How do you diagnose your view of sin and Jesus?

	Big View of Jesus	Small View of Jesus
Big View of Sin	In this view we have a: • Realistic view of ourselves (sinners in need of daily, abundant grace) • Robust View of Jesus (abounding in mercy, abundant in kindness, lavish in Grace) 1	In this view: • We view Jesus as the doorway to salvation, and now feel like we have to continually earn God's favor to keep our salvation. • We function like legalists.
Small View of Sin	In this view: • We view Jesus sacrifice for us very casually, and take holiness very lightly. • We function like the law of God no longer matters.	In this view: • We likely have never experienced a saving relationship with Jesus. The cross is immaterial, and our view of God, Sin, Salvation, and Eternity have been shaped by our own attempts at "self-salvation"
