### Praxis

1. The more time the disciples spend with Jesus, the more they come to understand Him... What are some things you have come to understand about Jesus better since you first believed in Him, and how did that come about?
2. If "following" Jesus involves actions in His service, what are some of the actions He commands regarding how you relate with other people? how you relate with Him?
3. What is a particular action that you feel you typically avoid? Why is that? Is there anything you should do about that?
4. Thought Question: Can every Christian be engaged continually in every action commanded by Jesus? What do you make of this reality?
