“Without revelation man would never have been able to acquire any knowledge of God. And even after God has revealed Himself objectively, it is not human reason that discovers God, but it is God who discloses Himself to the eye of faith. However, by the application of sanctified human reason to the study of God’s Word, man can, under the guidance of the Holy Spirit, gain an ever-increasing knowledge of God.” – Louis Berkhof, *Systematic Theology*, pg. 21

“When the people respond to the Lord’s Word calling them to seek, forsake, and return, the effective power of that word brings them into an experience of the love, forgiveness, and peace of God and lifts them into membership of a new world of eternal duration. This is what the Servant accomplished.” – AJ Motyer, *Commentary on Isaiah*, pg. 458
