

China's Trojan Horse US Invasion

(April 28, 2023)

It's happening *now*. Really you say? Yes, *really*. Of course I know how that sounds; conspiratorial at best and insane at worst.

The problem is that it's not at all like any conventional war. There is no physically obvious battlefield. There are no tanks rumbling over the ground, no visible soldiers in combat gear carrying grenades, bazookas or other true military weaponry. There are no jets flying overhead dropping bombs on people below. This invasion looks nothing like any conventional war ever waged.

Welcome to 2023 where China has paid politicians in Congress and the White House and because of huge monetary payoffs to those treasonous politicians, they've been willing to turn the USA over to China. They also deserve death by firing squad because of it. China has literally gained access to our secrets and is in the process of killing/maiming Americans in droves.

Okay, so exactly *how* is that being accomplished? They're using a bio-weapon that has been recommended and even *mandated* by powerful people in the United States and roughly 70% of Americans rolled up their sleeves to receive at least one shot of the bio-weapon. The bio-weapon? The CV jab, sorry to say.

Now before you decide I'm off my rocker or have gone off the deep end of conspiracies, please enlighten yourself by watching this presentation by Naomi Wolf, given recently at Hillsdale University.

The above link will take you to the video presentation from Hillsdale where Dr. Wolf presents her findings of the Pfizer documents, the same documents our illustrious FDA wanted to be kept out of the public eye for 75 years.

The conclusions Wolf comes to are all based on the facts and data from Pfizer itself.

Because of that released Pfizer data, Wolf understands how the jab was designed and

what it was designed to *do*. In essence the jab was designed to be a Trojan Horse taking control over Americans who participated in rolling up their sleeves and submitting to the CCP (Chinese Communist Party). Please take the time to watch the video and decide for yourself.

You may be wondering *how* China is responsible for this and Wolf explains it as it is ALL based on the Pfizer docs. China *owns* the CV jab contents and it is manufactured in *China* as well as *other* places in Europe and the USA.

The reality is that it appears that the entire CV pandemic was used to allow the Trojan Horse job to be introduced into America (and Canada and other parts of the world). We can thank WEF and other powerful globalist institutions for doing this. They have done so by either compromising elected officials through blackmail or outright purchase (like the Bidens), who willingly gave in return America's sovereignty.

If you watch the video and are shocked, saddened, depressed or angry, you have an important job to do. That is to spread the video as far and wide as you can. Naomi's organization - Dailyclout.io - has info on the Pfizer docs as well.

The sad truth is that what has been happening in the past few years has been designed. As Wolf says, it is mass murder and the records kept by Pfizer are reminiscent of the records Nazi Mengele kept.

Aside from this, it is important to understand two additional concerns that are bringing America to its knees. And by the way, I *do* completely understand that we are in the end times, it is late, and things are ramping up to bring us into the Tribulation. However, this does not mean we throw up our hands and go, "*Oh well, there's nothing we can so might as well go with it and let it happen!*" We still have an obligation to share the truth in all areas and to educate others, both of their need for Jesus and to help them understand what is occurring in the world and specifically in North America.

The two additional concerns are these, very briefly. First, it is clear that the World Economic Forum is doing all they can to speed things up so that the full Agenda 2030 will come to fruition and be in place *before* 2030. [1] It's clear that those globalists as well as others are behind what China is doing. In fact, since China has been a technocracy for decades, it is clear that China is simply the puppet being used to help usher in world domination for the globalists. Everyone who plays along with those globalists is handsomely rewarded.

Second, America's southern border is so open that anyone can (and does), walk into this country without a problem. Millions have crossed over into the USA and are not registered or found afterwards. Who are they? What do they want? Why are they here? Why is the Biden administration seemingly so obtuse about America's southern border, claiming it is secure when it is not? Because they are bought and paid for by globalists. It's always about money and reward. All these mainly young men waltzing into America are creating major problems for Americans and are seriously taxing our resources. Are they here because they are trying to escape poverty and other situations in their own countries or is there something much more nefarious afoot?

It would seem that globalist organizations like WEF are at the heart of everything. Over the past three to four decades, these groups have gained tremendous power over numerous countries solely because people can be bought. Most have a price and will sell their mother if it benefits them.

Because of the way politicians have literally sold themselves to globalists, those globalist groups have grown extremely stronger. They control many leaders and through them, many countries. Those three things - China's attack via the CV job, globalist organizations and America's open border - the USA is on the precipice and will likely fall, if nothing is done. I say this not because our concern should be over a nation, but our concern should be over the people *of that nation*. By doing nothing, we stand with those

who are corrupt, fully bought and paid for, so that enemies of this country and of God get what they want.

Our greatest weapon is truth, regardless of how that truth is received. We all now have an obligation and it is the same obligation we as Christians have had forever. It is to tell the truth whether people listen or not. That truth concerns telling people of their need for Jesus and the only salvation that exists. It now also includes the truth revealed in the Pfizer documents.

As Wolf has stated, we *must* push back even if we do not win. We tell people about their need for Jesus because we love them and because of what He offers. Truth is truth. We need to spread it. Whether it is accepted or not is not on us but the other person.

For me? I'm tired of being someone who'd rather avoid confrontations and potential hurt feelings or even insults. I'm really ashamed of me because I clearly do not fear (offending) the Lord enough regardless of how much I write about it, yearn for it and hope to gain it.

What I need - and what all Christians need - is a forehead of flint. A forehead of flint will mean we are not affected by what people do or say in response to the truth we share with them.

Behold I have made your face as hard as their faces, and your forehead as hard as their foreheads. (Ezekiel 3:8 ESV)

Oh to be unconcerned about what people think after we share the truth. Imagine walking past someone's house that's on fire. It's a small fire at the back without much smoke. Left unchecked it will become a huge conflagration. You decide not to tell the people inside the house because they might laugh at you or simply not believe you. God demands we tell people anyway.

You shall speak my words to them, whether they hear or refuse to hear, for they are a rebellious house. (Ezekiel 2:7)

Jesus was unafraid to tell the truth. They killed Him for it. Is that what we shrink from? Speak the truth. Share the Gospel. Spread the word about the Pfizer docs. Do this without concern for what people may think of you.

Pray for His strength and a forehead of flint. Tell people whether they listen or not.
