

Note to the Reader

When I was publishing my article on the coronation of Charles III, I realised that it was the fourth article I had produced concerning the Royal Family and their connection with the gospel. Whether or not these four articles will make any lasting spiritual contribution remains to be seen, but I thought that collecting the articles in this booklet might increase its possibility. On re-reading the articles, I see a certain amount of covering the same ground. I could have cut this out, but I decided to let the articles stand more or less as they were first published.
