Introduction: What the family does as it leaves the family meeting

1. Love your immediate family: let brotherly love continue.
2. Love your extended family: do not neglect to love strangers.
3. Love your suffering family: we all suffer some, and some suffer much... don't let "out of sight" turn into "out of mind," because Jesus did not do that with you!
4. Love your family family. In God's design, the strength and stability of the household family is absolutely essential to the household of God. He demonstrates this by stressing honor, purity, and judgment.
5. Though the family meeting stops, Father's presence never does, and we must keep hearing the preaching—from ourselves.

Conclusion: We are now having the family meeting, as we do every week—what will you be doing between this one and the next?
