*Toxic 'forever chemicals' taint nearly half of U.S. tap water, study estimates...* PFAS refers to more than 12,000 chemicals that persist in the environment and can build up in the body... ## Tucker Carlson on Twitter EP 6:

**There's never been a candidate for president the media hated more than Robert F Kennedy Jr. You thought that title belonged to Donald Trump, of course it must. But go check the coverage: Trump got a gentle scalp massage by comparison...**

***The Times* attacked Bobby Kennedy in the very first sentence of the story: quote “Robert F Kennedy Jr” the paper declared “announced a presidential campaign on Wednesday built on relitigating covid-19 shutdowns and shaking Americans faith in science?” They've called him a lunatic and a Nazi. Instagram shut down his account. YouTube just last week pulled down a perfectly reasonable interview he did with Jordan Peterson citing unspecified misinformation.**

**But wait: I don't remember this many kids having allergies or asthma or eczema or autism or for that matter body dysmorphia. And why so many suicides? What's going on here? "Shut up, stop asking questions" that's their answer.**

**But Bobby Kennedy won't stop asking and that's why they hate him.**

**As Kennedy spoke on the Rogan show, a reporter for vice.com called Anna Merlin was watching. Merlin was so enraged by what she saw that she dashed off an article attacking Joe Rogan's employer for allowing the conversation to take place.**

**What we can say was certainty is that America's Medical establishment has beclowned itself for all time.**

**Its official positions on vaccines, psychiatric drugs, puberty blockers, reassignment surgeries, a long list of other politically factual priorities - have no connection whatsoever to legitimate science. **It's all effectively witchcraft.**"**

## RFK Jr. Interview with Jordan Peterson:

"A lot of the problems we see in kids...its under-appreciated, how much of that is coming from chemical exposures...including a lot of...sexual dysphoria that we're seeing...They're swimming through a soup of toxic chemicals today...Many of those are endocrine disruptors...There's Atrazine throughout our water supply...If you put Atrazine in a tank full of frogs it will forcefully castrate and forcibly feminize every frog in there...and 10% of the male frogs...will be able to produce viable eggs..."
