CHRIS HARRISON BIBLE CROSS REFERENCE

"This set of visualisations started as a collaboration between Pastor Christoph Römhild and myself in 2007. He had assembled a digital dataset of cross references found in the King James Bible. Cross references are conceptual links between verses, connecting locations, people, phrases, etc. found in different parts of the Bible... – 63,779 cross references in total." *Chris Harrison*

THE BAR GRAPH

The bar graph that runs along the bottom represents all of the chapters in the Bible, starting with Genesis 1 on the left.

Books alternate in colour between light and dark gray, with the first book of the Old and New Testaments in white.

The length of each bar denotes the number of verses in that chapter.

THE ARCH VISUALISATION

Each of the 63,779 cross references found in the Bible are depicted by a single arc. The colour corresponds to the distance between the two chapters, creating a rainbow-like effect.
