

Essential Quality #3: Sensibility

Introduction:

Statistics show that the majority of American women and men will marry before 31 or 35, respectively. That means that for most collegians, marriage is approaching in the next four to eight years. And marriage is a lot of tough, serious work as well as joy. The choice of marriage partner, though, is something for which collegians should begin to prepare. That requires sensibility.

1. What does "sensible" mean?
 - a. Some aspects of the term
 - i. She is in her right _____/her mental state is never questioned.
